Devin Young

## Unity Week 1 Assignment

- Git
- GitHub Desktop
- GitLFS
- Unity
- VSCode

### Git Path Variable

## Week 2

### What is Git?

Git is a free version control software

### What is GitHub?

GitHub is a visual interface for the Git software

### What would you have in a .gitignore file to make sure to NOT track a specific file type?

To not track a specific file type you would put a wildcard flag in front of the file type in the .gitignore file which

would tell Git not to track those specific files

\*.txt in the .gitignore file would tell Git to ignore all .txt files
